### **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 12, 2009 has been entered.
2. The examiner acknowledges the amendments to claims 1, 2, 3, 9, 10, 16, 17, 23, 26, and 27. Claims 8, 15, 18, and 25 have been canceled.

### **EXAMINER'S AMENDMENT**

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
4. The application has been amended as follows: the limitations in lines 3-4 of claim 1 reciting:
  - "each membrane pump cassette for coupling with one of the plurality of pumps, each membrane cassette comprising"are redundant and the second of recitation of membrane cassette omits the word pump. Therefore the limitations will be amended to recite:
  - --- each membrane pump cassette for coupling with one of the plurality of pumps, ~~each membrane cassette comprising~~ ---

Art Unit: 3746

5. Claim 1 also recites the limitation of "pump cassette" twice in line 13 of the claim (section (c) - second line). As best understood by the examiner the limitation of "pump cassette" refers to "membrane pump cassette" introduced in section (a) of the claim 1.

Therefore the limitations in line 13 of claim 1 reciting:

- "pump cassette"

will be amended to recite:

- --- membrane pump cassette ---

***Allowable Subject Matter***

6. Claims 1-7, 9-14, 16, 17, 19-24, 26, and 27 are allowed.

7. The following is an examiner's statement of reasons for allowance: the prior art fails to teach or suggest the limitations for a fluid processing workstation, a membrane pump cassette bank, or a kit including a plurality of pumps, each pump configured to operate a membrane pump cassette, each membrane pump cassette comprising a first pump chamber (or working solution pump chamber), and a first fluid inlet port (or working solution inlet port) in selective fluid communication with the first pump chamber when its respective pump applies negative pressure to the first pump chamber membrane, in combination with an inlet tube, distribution tubing that connects an inlet tube to the first inlet port of each of the pump cassettes such that the first pump chambers of the pump cassettes can be coupled to pump fluid from a common fluid source via the inlet tube and distribution tubing, and a multi-port coupling in the distribution tubing such that the distribution tubing extends away from a first and second port of the coupling, the inlet tube is connected to a third port of the coupling, and the

Art Unit: 3746

first fluid inlet port of a middle one of the pump cassettes is coupled to a fourth port of the coupling.

The closest prior art of Uber; III US 6,149,627 teaches a multi-patient fluid/drug delivery system which includes a mixing chamber 20 that supplies different patients with fluid through individual pumps. Uber teaches individual pumps which are linked to the mixing chamber through distribution tubing (see fig. 1) connected to each pump 35, an inlet tube 26 connected to the mixing chamber, and a multi-port switch valve which selectively puts the inlet tube 26 in communication with a branch of the distribution tubing associated with a given pump 35. Uber; III does not teach a multi-port coupling which puts the inlet tube in communication each branch of distribution tubing at once and does not teach a pump that operates a membrane pump cassette.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
